Dear Bob,

I am writing this letter for several reasons. First, I am enclosing a check for \$10.00 for a subscription to Vol. 2 of the Arcadian. This is a fantastic newsletter, and I certainly don't want to miss any more issues. This leads into my second point: I have yet to receive any back issues of Vol. 1. I have received numbers 8, 9, and 10, and I am really happy with them. However, this only makes me want the back issues even more.

About your survey questions in number 8, sorry I didn't respond earlier, but my answers are: 1. Yes 2. No 3. Yes, definitely. Other than the loss of the ZGRASS features, I like your plans for the expansion unit better than Bally's. I called Bally recently to ask about the expansion unit, and came away pretty discouraged. Please keep me informed of your plans and developments. By the way, my unit is Model # BL1200, Serial # 3635.

You asked whether anyone is interested in the lists of routine descriptions and object codes described on page 83 - the answer is yes, definitely. Please let me know how I can get a copy. I had no trouble understanding the sample, and only wish you had given me the address of the routine so I could use it.

For a Gunshot sound, try the following subroutine:

```
5000 FOR A=16 TO 19;&(A)=255;NEXT A;V=25
5010 IF TR(1)=0 GOTO 5010
5020 V=V*3+5;&(21)=32+V;&(22)=V*17;&(23)=V*16;IF V>0 GOTO 5020
5030 RETURN
```
